## Kit SERO'BOX® PSB050

AccsA'tech specializes in the management and optimization of biological samples (serum libraries, DNA libraries, sample libraries, strain libraries and biolibraries). We offer both turnkey and customized solutions. The SERO'BOX® range features compact, lightweight PSB050-13 racks. They are compatible with all pre-and/or post-analysis automated systems on the market. They are sold individually or in kit form with SERO'BOX® software. The racks can be stored in specific SERO'BOX® freezers or on racks specially designed for your cold room.
